

Why SIP Abacus?

SIP Abacus is a skill development programme that can help in various aspects of your child's development. SIP Abacus courses are designed to develop soft-skills, numerical abilities and overall intelligence.

Children in today's smartphone-enabled world have just one problem – the constant distraction of stimuli from smartphones, streaming platforms, and other devices.

SIP Abacus program is tailored to engage your child productively, learning MATH in a fun way.

**Lower learning
ability**

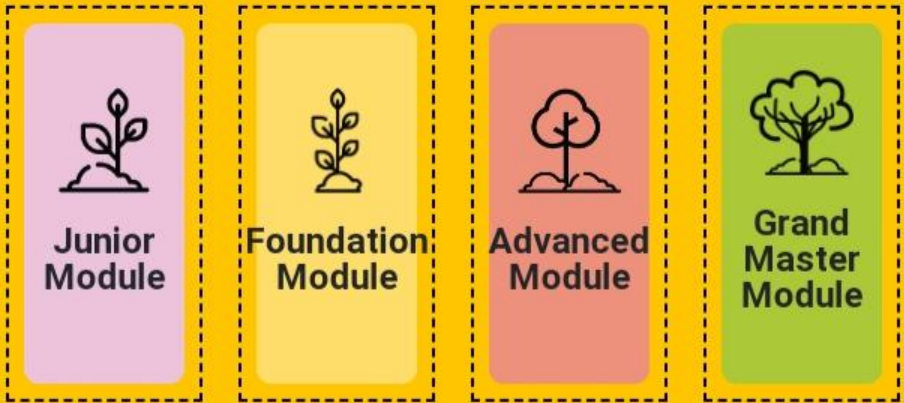

Poor attention span

**Lack of focus
& concentration**

How does SIP Abacus help Children

The SIP Abacus programme is a unique systematic training programme that helps children in their formative years develop an absorbent mind. It uses three tools to develop essential learning skills in your child namely

Abacus Training

Brain Gym

Speed writing

The essential skills developed by the SIP Abacus programme are

Develops a high degree of Concentration

Removes the fear of Math

Gives a strong foundation in Math at a young age

Improves visual Memory

Improves Listening Skills

Children learn to destress and activate their brain

Learn to write faster also neatly

Overall develops an absorbent mind that enhances their ability to learn anything.

Make Your Child 5 Times Better

Once your child enrolls in our program we do a pre-test and record the score. On completion of foundation level (just a little over a year), we do another test and we promise that your child will score a minimum of 5 times more!

And what's more amazing we back the promise with a MONEY BACK GUARANTEE! We refund an amount of Rs. 10000!

We are the first and only Abacus training center globally to offer such a brand promise. This is because of the passion of our teachers and the quality systems that we have incorporated in our training.
